

East Los Angeles College
Department of Mathematics
Winter 2020
Math 125

Course: *Intermediate Algebra* Section 10889
Monday to Thursday
8:00 AM to 12:25 PM
G5-008

Course Description: This course strengthens and further develops manipulative skills in Elementary Algebra. Topics include the fundamental operations on algebraic expressions, solutions of equations and inequalities, exponentiation, graphs of algebraic, exponential and logarithmic functions, systems of equations and inequalities, and introduction to conic sections. Applications are included in a wide variety of word problems.

Instructor: Daniel Judge

Contact Information: (323) 415-5364
judgedd@elac.edu
<http://www.ddjudge.com>

Office Hours: G5-111G
Monday to Thursday
12:30 PM to 1:00 PM

Textbook: Elementary and Intermediate Algebra, 3rd custom edition, by Bittinger, Ellenbogen, and Johnson.

Student Learning Outcomes: Given a quadratic equation in the form of $y = a(x - h)^2 + k$, students will,

- State whether the parabola opens upwards or downwards
- Find the coordinates of the vertex
- Write the axis of symmetry
- Find the x-intercept(s)
- Find the y-intercept(s)
- Graph and label the points

Exam Information: There will be four tests and a comprehensive final examination. The lowest of the four tests will be dropped and will be replaced with a prorated portion of the final exam score, if it is greater than your lowest test score. No make up tests are allowed, unless a valid reason exists with proof. Students requesting a make up exam will be required to justify and document their reasons for missing a test and have the missed test made up within a week of the missed exam during my office hours. Otherwise, it will turn into a 0 test score.

Homework Information: Homework will be assigned and collected the day you take your tests. Refer to the testing schedule to determine the days your homework is due.

Grade Information

Grades are determined by the amount of points that are earned.

Point Distribution	
Test 1	150 points
Test 2	150 points
Test 3	150 points
Test 4	150 points
Homework	100 points
Final	300 points

Scale	
1000 to 900 points	A
899 to 800 points	B
799 to 700 points	C
699 to 600 points	D
599 to 0 points	F

Calculator Policy: No calculators will be used in this class.

Attendance Policy: The student is expected to attend every meeting of all classes for which he or she is registered. It is the responsibility of the student to notify the instructor of circumstances which will prevent attendance at any meeting of the class. Whenever absence in hours exceed the number of hours the class meets per week, students may be excluded from class by the instructor. It is the student's responsibility to drop from a course, if they intend to no longer be enrolled in the course.

DSPS: Students with disabilities who need reasonable accommodation should promptly alert the instructor, then provide verification of disability to the Disabled Students Program located in E1-106 or call (323) 265-8787 to make an appointment. If a student with a disability feels that accommodations offered are inappropriate or insufficient, she/he should seek the assistance of the DSP&S Coordinator and/or the Vice President of Student Services.

9803.28 Academic Dishonesty. Violations of Academic Integrity include, but are not limited to, the following actions: cheating on an exam, plagiarism, working together on an assignment, paper or project when the instructor has specifically stated students should not do so, submitting the same term paper to more than one instructor, or allowing another individual to assume one's identity for the purpose of enhancing one's grade.

Cheating Policy: Cheating constitutes academic dishonesty and will be handled as part of the grading process. If students are caught cheating on a test, or final, there will be a zero assigned for the assignment and a letter written to the Dean of Students, or International Student's Office, requesting they take formal action against the student.

Incomplete Policy: Incompletes are given to those students that can say yes to all of the following questions.

1. You have an emergency that requires you to miss instruction.
2. The emergency has taken place after the withdrawal deadline.
3. You are passing at the time of the emergency and incomplete request.

Class Rules: The following rules will be enforced.

1. Talking is prohibited during course instruction, tests, and final examination. This distracts the instructor as well as neighboring students, so please be courteous.

2. If you are late, please enter the room quietly and discretely. This distracts the instructor as well as neighboring students, so please be courteous.

3. Turn off your cell phones or put them on vibrate during class time. This distracts the instructor as well as neighboring students, so please be courteous.

4. Any student who disrupts the class in any manner by talking, cursing, laughing, or in any other way, will be warned once and dropped from the course, if the behavior continues. I will not reinstate you once I've dropped you for behavior.

5. There is no sleeping during class time. If you are caught sleeping during class lecture, I will ask you to leave the classroom and come back when you are rested enough to attend and take lecture notes.

<i>Math 125</i>	Monday	Tuesday	Wednesday	Thursday
	6-Jan	7-Jan	8-Jan	9-Jan
Week 1	Introduction Review	Absolute Value Equations Compound Inequalities	Absolute Value Inequalities	Square Roots Cube Roots
Week 2	13-Jan Test 1 Simplifying Radicals Adding/Subtracting Radicals	14-Jan Multiplying Radicals Dividing Radicals	15-Jan Complex Numbers Complex Addition/Subtraction Complex Multiplication/Division Square Root Formula	16-Jan Quadratic Formula Quadratic In Form
Week 3	20-Jan Holiday Campus Closed MLK Day	21-Jan Test 2 Radical Equations Quadratic In Form	22-Jan Complete The Square Graphing Quadratics	23-Jan Non-Linear Inequalities Conic Sections
Week 4	27-Jan Test 3 Functions Inverse Functions	28-Jan Exponential Functions Logrithmic Functions	29-Jan Exponential Equations Logrithmic Equations	30-Jan Exponential Applications
Week 5	3-Feb Test 4 System of Linear Equations	4-Feb System of Linear Equations	5-Feb Review	6-Feb Final Exam 8:00 Am to 10:00 AM G5-009 HW 5 Due
